# Replace his head with yours!

1) Take a right-facing profile picture of yourself in **Photo Booth.**

2) Drag the photo from the Photo Booth tray to your Desktop.

3) In Flash, click on the **Library** tab near the upper right corner of the screen.

4) Double-Click *head side* to edit that object.

5) Drag your photo from your desktop to the Flash stage.

6) Choose **Modify > Break Apart.**

7) Choose the lasso tool from the toolbar.

8) Carefully lasso your head and neck.

9) Choose **Edit > Cut.**

10) Choose the selection tool.

11) Click on the remainder of your photo and press **Delete** on your keyboard.

12) Choose **Edit > Paste in Place**.

13) Click on the white area outside your head.

14) Choose the free transform tool and click back on your head.

15) Resize it and position it to replace the original head.

16) Click on the blue head and delete it.

17) Click on **Scene 1** near the upper left corner of the screen.

18) If your head is not in the right place, you have to move in in the **Library editor** (double-click **head side).**

## Turn in your project

19) Choose **File > Export > Export Movie…**

20) Change the name to your last name with *guy* at the end.

21) Change the *Where* to your Desktop.

22) Change the *Format* to ***Quicktime***.

23) Hit **Save**.

24) Then hit **Export**.

25) Hit OK when it tells you it's done.

26) Turn it by either emailing it to Mr. Elman or dragging it to the DROP BOX Folder on your desktop.
