computer programming

otherwise known as

CODING

teaches

problem solving, technical reading, and

creative thinking.

Use Firefox on the computer OR Safari on the iPad:
Go to code.org/join

Get the class code from Mr. Elman

Watch all the videos.
Follow the directions to solve each puzzle.
Go on to the next stage.

There are 20 stages in the intro to computer science course.
See how far you can get!
Rewards will be presented at the end of the semester
to the 5 best coders in each class!
